Breakfast has always been our favorite meal to eat out. We like a relaxed pace where we can get our thoughts synchronized while someone else handles the cooking details. It always helps if there is something available on the menu we can't get other places. This is what we're trying to provide here at BRG because we love great homemade food.

We are grateful you have joined us for a meal and appreciate your ongoing support of independent restaurants wherever you go. *Thank you!*

Meat and eggs undercooked to your specification may increase your risk of foodborne illness, especially if you have certain medical conditions.
